

## Kai Antonia James Class of 2021

Hello! My name is Kai-Antonia and I'm currently a senior at BILA. I hope you all are doing well during these times. Going to a good high school may be a dream for most of you. Your next four years will be spent in high school so it's best to choose one where you can

become the best you and make many memories. With that being said, I say choose BILA and become a part of our family. Why? Because we are one of a kind. You won't find teachers and other staff like ours. Our teachers actually care unlike what you were probably told. My teachers in middle school told me that my teachers in high school wouldn't care if I'm doing well or not but it was proven to me that it's not true. No student is left behind here. Early college courses and AP classes are available to you, free of cost. Not to mention our parties! That's just a little bit of what we offer. Want to know more? Then why not join our family and see for yourself? After all, we are a small school doing big things.
